

Task Force Guideline Release Letter

RE: Release of Guideline on screening for esophageal adenocarcinoma in patients with chronic gastroesophageal reflux disease

July 6, 2020

Good Afternoon:

Today the Canadian Task Force on Preventive Health Care is pleased to release its clinical practice guideline entitled *Guideline on screening for esophageal adenocarcinoma in patients with chronic gastroesophageal reflux disease*. The guideline can be found in the online version of CMAJ at www.cmaj.ca/lookup/doi/10.1503/cmaj.190814. In addition, a CMAJ print copy of the guideline will be distributed to thousands of primary care providers who subscribe to the journal.

We are also pleased to provide you with a copy of the knowledge translation tools to accompany the esophageal adenocarcinoma guideline. The guideline and knowledge translation tools can also be found in English and French on our website at www.canadiantaskforce.ca.

If you have any questions, please contact the Task Force at info@canadiantaskforce.ca.

Sincerely,

Dr. Stéphane Groulx, MD, CCFP, FCFP
Chair, Esophageal Adenocarcinoma screening Working Group
